Call to Order.

Jim Haake, Chief Building Official called the meeting to order at 3:30 pm.

ITEM #1 – Licensing of Operating Engineers

The board had a discussing on what would be required to option boiler, refrigeration, and ammonia license. The board agree that they need testing results from a Nation Board testing center. Garden City Training center in Kansas is a National recognized testing center. We need a consistent guideline for the operating engineers that states what is required for the license, as there are some with not enough certification or experience to run the boiler. Mary Mathiot will get a form letter written up and have the board review it. As of right now the only boiler inspections are done by the Insurance Companies.

ITEM #2 - Meet the new CBO

Most of the board had been in and talked with Jim previously.

The meeting adjourned at 5:20 pm.

Minutes respectfully submitted,

Mary Mathiot, Permit Clerk
