Funding Notes:

This report was funded in part through grant[s] from the Federal Highway Administration [and Federal Transit Administration], U.S. Department of Transportation. The views and opinions of the authors [or agency] expressed herein do not necessarily state or reflect those of the U. S. Department of Transportation.

Title VI Note:

SJATSO hereby gives public notice that it is the policy of the agency to assure full compliance with Title VI of the Civil Rights Act of 1964, the Civil Rights Restoration Act of 1987, Executive Order 12898 on Environmental Justice, and related statutes and regulations in all programs and activities. Title VI requires that no person in the United States of America shall, on the grounds of race, color, sex, or national origin, be excluded from the participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity for which SJATSO receives federal financial assistance. Any person who believes they have been aggrieved by an unlawful discriminatory practice under Title VI has a right to file a formal complaint with SJATSO. Any such complaint must be in writing and filed with SJATSO's Title VI Coordinator within one hundred and eighty (180) days following the date of the alleged discriminatory occurrence. For more information, or to obtain a Title VI Discriminatory Complaint Form, please see our website at <https://www.stjoemo.info>.

Annual Listing of Obligated Projects

The Fixing America's Surface Transportation Act (FAST) transportation legislation enacted by Congress in December 2015 requires that:

“An annual listing of projects, including investments in pedestrian walkways and bicycle transportation facilities, for which Federal funds have been obligated in the preceding year shall be published or otherwise made available by the cooperative effort of the State, transit operator, and metropolitan planning organization for public review.” 23 CFR 134(j)(7)(8)

As required, this report lists all transportation projects authorized or revised to increase obligations of federal transportation funds in the St. Joseph metropolitan region during the MPO program year 2019 (July 1st, 2019 – June 1st, 2020). The federal government obligates, or commits, funds to a project only after the completion of the required project development process and all local, state, and federal approvals have been obtained.

For FTA projects, obligation occurs when the FTA grant is awarded. For FHWA projects obligation occurs when a project agreement is executed and the State/grantee requests that the funds be obligated. Within this context, an obligation is the Federal government's legal commitment to pay the Federal share of a project's cost. An obligated project is one that has been authorized by the Federal agency and funds have been obligated. Projects for which funds have been obligated are not necessarily initiated or completed in the program year, and the amount of the obligation will not necessarily equal the total cost of the project. Additionally, the report indicates those projects for which bicycle and pedestrian elements are included.

St. Joseph Area Transportation Study Organization (SJATSO)

The St. Joseph Area Transportation Study Organization (SJATSO) is the federally designated Metropolitan Planning Organization for the region. A Metropolitan Planning Organization (MPO) is a regional decision-making body composed of elected officials, state and federal partners, and city staff from the metropolitan area. The MPO is charged with producing federally required transportation policy and planning documents as well as ensuring an inclusive public participatory process is followed.

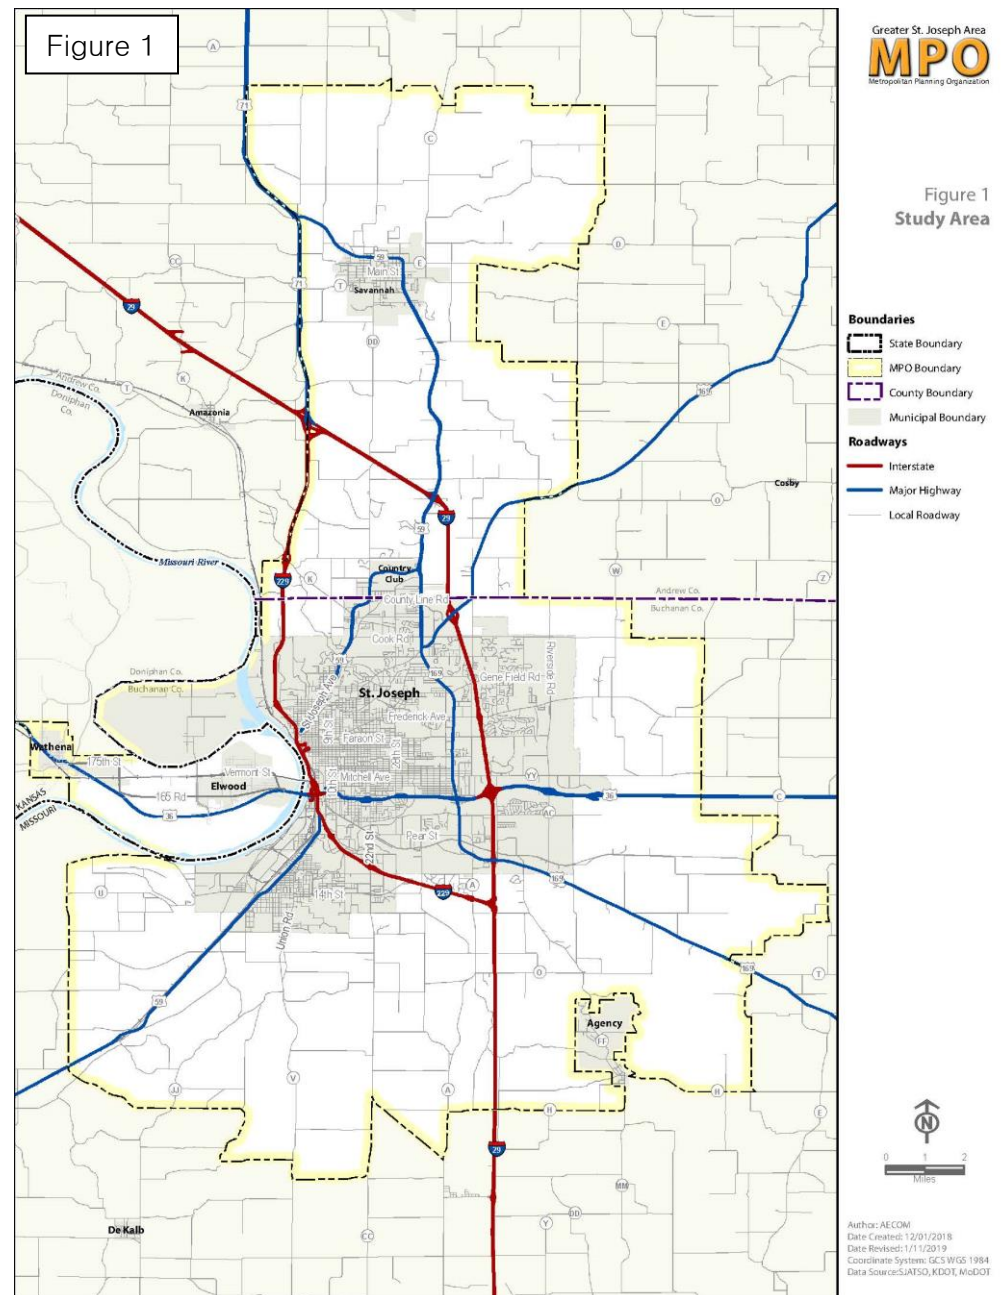

The transportation planning process at SJATSO is overseen by the Technical Committee, which provides technical support and recommendations to the Coordinating Committee, the ultimate decision making body. Committees are comprised of both local transportation professionals such as engineers, as well as elected officials, such as city council members. SJATSO’s bylaws determine the positions that should be represented on each committee and additional advisory committees are appointed by the individual boards based upon need.

SJATSO serves the tri-county St. Joseph metropolitan region, which includes five separate city governments. As a bi-state MPO, SJATSO’s boundaries include portions of Buchanan County and Andrew County in Missouri and Doniphan County in Kansas.

Transportation Improvement Program (TIP)

The [Transportation Improvement Plan \(TIP\)](#) documents the metropolitan regional prioritization of limited transportation resources available among the various needs of the region. It is a program and schedule of intended transportation improvements (or continuation of current activities) for the next four (4) years, developed as part the regional planning process for federal funds received from the Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA), as well as regionally significant projects affecting the system regardless of funding source.

SJATSO, in cooperation with the State(s) and designated transit operators and local partners, is responsible for developing the

TIP. As a bi-state MPO, SJATSO includes both the Missouri Department of Transportation (MoDOT) and the Kansas Department of Transportation (KDOT). SJATSO is also responsible for providing citizens, private providers of transportation, and other interested parties with a reasonable opportunity to comment on the proposed program. The TIP must be updated at least once every four (4) years; however SJATSO conducts full updates annually and allows for amendments twice during the program year. Once approved by the Coordinating Committee and the Governor(s), the TIP is added to each State's respective Statewide Transportation Improvement Program (STIP) by reference.

The TIP contains a priority list of projects to be carried out within each year of the four year program and provides a constrained financial plan that demonstrates projects are capable of implementation. Additionally, sponsors must demonstrate that funding to implement projects is reasonably available.

The SJATSO Coordinating Committee adopted the current 2019–2022 TIP on May 23rd, 2019.

Summary of Projects

In FY19, 43 projects in the St. Joseph region obligated a total of \$188,077,890.91 in federal transportation funds.

Obligation Report

Since SJATSO is not directly involved in the obligating of federal funds, this report is based on information provided by the Kansas and Missouri Departments of Transportation and local transit operators. The summaries of projects listed in the table below are organized by county and TIP/STIP/Grant identification number. For each project, the TIP identification number, project name, project sponsor, location/description, federal fund source, amount programmed in the TIP, prior federal obligation funds, 2018 federal obligation funds, total expended, funds remaining, total project cost (including local match) and those with bicycle and pedestrian elements are included in the chart below. A note on funds remaining, those are the actual expenditures compared to what was originally programmed in the TIP to better gauge how well a project stayed within the confines of its originally proposed amount. Since the TIP is the document that goes through public review, it is important for the public to know how well projects stuck with budget. So in some instances you may see funds remaining because projects have not closed out yet, however in the case of 5307 Operating the remaining funds are because the awarded amount was less than initially expected and projected in the TIP.
